SOLARIS: SINCE 1974 QUALITY, SEAWORTHINESS AND ELEGANCE

The boatyard’s reputation, founded in Aquileia more than 50 years ago, is better known among German, Swiss and Austrian yachtsmen than it is in Italy. Right from the beginning, the company’s philosophy has been the building seaworthy, solid and secure sailing boats to the highest quality standards, capable of challenging the prestigious Scandinavian and Dutch yacht builders. Fittingly, Solaris claims that our yachts are also: “Built for mariners”. Its volume and revenues increased fivefold in just a few years and

today it is the European leader in the category of top-class sailing boats from 50’ to 110’. There are not many boatyards left today, who can combine leading-edge technology with traditional craftsmanship of detail and finishing as Solaris Yachts does. Since 2008 Solaris also operates a production unit dedicated to motoryachts from 44’ to 100’, including five 90’ luxury displacement motoryachts for an internationally renowned brand. This facility is now the builder of the new Solaris Power range, to the same exacting quality standards of Solaris sailboats.

TRADITIONAL CRAFTSMANSHIP

There are not many boatyards left today, that can combine leading-edge technology with traditional craftsmanship of details and finishing as Solaris Yachts does.

THE LOBSTER BOAT HERITAGE

Solaris was among the first in Europe to build a lobster boat, the 47-foot Express Cruiser, by Bruce King, designer of the famous American Hinckley line.

SEA PERFORMANCE HAS ALWAYS BEEN OUR
FIRST PRIORITY THIS IS WHERE WE INVEST
OUR BEST RESOURCES

SMOOTH SAILING THROUGH
THE WAVES AND A DRY DECK
IN CHOPPY SEAS

The sharp shape of the bow and the pronounced flare, softens the passage through the waves and keeps the deck dry also in choppy seas.

GREAT STABILITY
WHILE CRUISING AND
AT ANCHOR

The hull shape guarantees safety, great stability and comfort when cruising and at anchor, without the need for stabilizers.

LOW FUEL CONSUMPTION
RESULTING IN EXCELLENT RANGE
AND REDUCED CO₂ EMISSIONS

Thanks to the advanced studies on the shapes of the hull, Solaris Power yachts ensure low fuel consumption, resulting in excellent range and reduced CO₂ emissions. One example, the 40 Open at a cruising speed of 30 knots only needs 3.1 litres per mile.

EFFICIENT CRUISING
BOTH IN DISPLACEMENT
AND IN PLANING MODE

Unlike ordinary boats with planing hulls, Solaris Power are capable to cruise steadily and without roll even in displacement mode.

ALSO IN COMFORT OFFERS
THE FEATURES OF A 43 -FOOTER

NO STEPS FOR
TOP SAFETY AND COMFORT

Flush deck from the swimming platform to the steering position.

THE SOLE 40’
WITH AN AFT SUNBED
